\* Comment:

25X1A

Reparations trains to the U.S.S.R. are 120 axles in length, each axle supporting approximately seven and one-half tons. The trains made up of new passenger cars, and new refrigerator cars were of varying length and no record of the number of cars

25X1A

\*\*  Comment:

These cars left Frankfurt/Oder for the destination indicated. Their origin is not necessarily outside the DDR. They probably arrived at Frankfurt/Oder as part of the intra-domain movements and were dropped at the yards for switching.
